Subject: RE: WV0001279-The Chemours Company FC, LLC-Draft Permit

Hi Kim,

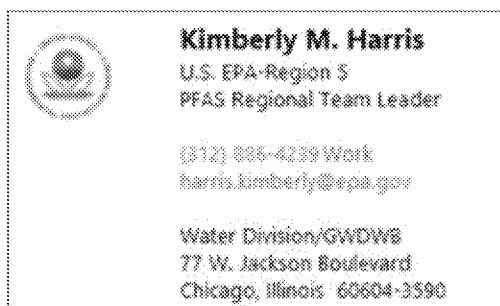

We still have not verified that WVDEP public noticed Chemours' draft NPDES permit. But, we found out R4 already shared it with North Carolina DEP, so you might as well share it with Ohio EPA.

Rick

Rick Rogers, Associate Director
Office of Drinking Water and Source Water Protection

Thanks for sharing! Is it OK to pass this along to Ohio EPA?

Thought you might be interested in WVDEP's draft NPDES permit for Chemours' discharges. It includes values for PFOA and GenX. We haven't read this in depth, but it appears they used North Carolina's GenX drinking water health goal as the starting point for GenX discharge values.

It is supposed to be public noticed soon.

Just FYI – WVDEP plans to public notice the Chemours Washington Works NPDES draft permit renewal on Thursday April 19th. See the fact sheet rationale beginning on page 183 of the attached pdf file for discussion on PFOA and GenX.

Hi All,

I'm forwarding you the long-awaited Washington Works draft permit that I just received from WVDEP. I will need Joel and/or Mark's assistance with the 316b requirements. It is a 243 page PDF but it looks like they included a lot of DMR pages.

316b intake requirements start on **page 86** of the PDF
316b compliance schedule starts on **page 73** of the PDF
The **Fact Sheet** starts on **page 170** of the PDF
